ERW Pipes | Hollow Sections | Large Dia & Spiral Pipes

House of Quality Steel Tubes

About Us

House of Quality Steel Tubes

Shreeji SteelTubes Pvt. Ltd. offers a wide range of steel pipes and hollow sections for construction, infrastructure, water and fluid transport and general engineering use. Our focus is consistent quality, dependable supply and prompt service to every customer.

Wide Range

ERW pipes, galvanised pipes, square & rectangular hollow sections, large dia and spiral pipes

Quality Grades

Multiple grades and standards to suit structural, mechanical and fluid applications

Quick Response

Share your requirement in our chat and our team gets back to you promptly

Our Product Range

#	Product	Typical Applications
01	**MS ERW Pipe**	Structures, scaffolding, water & gas lines, engineering
02	**GI ERW Pipe**	Plumbing, water supply, irrigation, fencing, conduits
03	**Square Hollow Section**	Steel structures, trusses, gates & grills, machine frames
04	**Rectangular Hollow Section**	Roof trusses, columns, frames, body building
05	**Large Dia ERW Pipes**	Water transmission, piling, industrial piping
06	**Spiral Welded Pipes**	Water & sewage pipelines, piling, structural

Product Details

Available grades and standards for each product.

01

MS ERW Pipe

Electric resistance welded round pipes in mild steel, for structural, mechanical and general fluid-conveyance use.

Applications: Structures, scaffolding, water & gas lines, engineering

Grades: YST 210, YST 240, YST 310, Fe 410, API 5L Gr.B

Standards: IS 1239 (Part 1), IS 3589, IS 1161, API 5L, ASTM A53

02

GI ERW Pipe

Galvanised round pipes with a zinc coating for added protection against corrosion.

Applications: Plumbing, water supply, irrigation, fencing, conduits

Grades: Light (A Class), Medium (B Class), Heavy (C Class)

Standards: IS 1239 (Part 1), IS 4736 (Galvanizing), ASTM A53

03

Square Hollow Section

Square tubular sections with uniform strength on all sides and a clean finish.

Applications: Steel structures, trusses, gates & grills, machine frames

Grades: YST 210, YST 240, YST 310, YST 355

Standards: IS 4923, IS 1161, EN 10219, ASTM A500

04

Rectangular Hollow Section

Rectangular tubular sections giving high strength-to-weight ratio in load-bearing members.

Applications: Roof trusses, columns, frames, body building

Grades: YST 210, YST 240, YST 310, YST 355

Standards: IS 4923, IS 1161, EN 10219, ASTM A500

05

Large Dia ERW Pipes

Large-diameter ERW pipes for heavy-duty conveyance and structural applications.

Applications: Water transmission, piling, industrial piping

Grades: Fe 330, Fe 410, Fe 450, API 5L Gr.B, API 5L X52

Standards: IS 3589, API 5L, ASTM A53

06

Spiral Welded Pipes

Large-diameter pipes formed from helically wound steel coil for long, high-volume lines.

Applications: Water & sewage pipelines, piling, structural

Grades: Fe 330, Fe 410, Fe 450, API 5L Gr.B, API 5L X52

Standards: IS 3589, IS 5504, API 5L, AWWA C200

How to Place an Enquiry

Tap Product Enquiry in our chat and keep these details ready:

1	Product
2	Size / NB / OD
3	Thickness / Schedule
4	Length
5	Grade
6	Standard
7	Brand preference
8	Quantity
9	Delivery location
10	Delivery date
