ABOUT US

A Brief Story About The Company

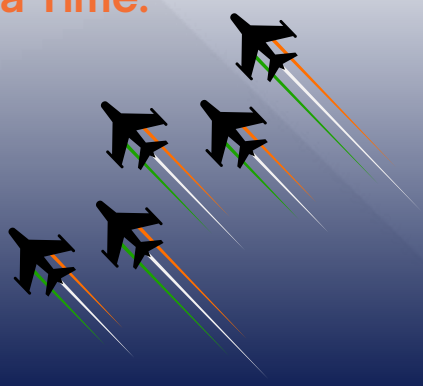

We M/S. Shreeji SteelTubes Pvt. Ltd. (ISO 9001:2015 Certified) is one of India's leading distributors, stockists, and suppliers of Iron & Steel products, known nationwide as the "House of Quality Steel Tubes™."

With over five decades of legacy and a state-of-the-art 80,000 sq. ft. warehouse at Kalamboli — the heart of Maharashtra's steel hub — we offer an unmatched range of GI, MS, GP, ERW, Seamless, and Structural Hollow Section pipes (CHS / SHS / RHS) in multiple grades and dimensions.

We are proud to be authorized distributors of India's most trusted brands including Jindal Star, Tata Structura, Hi-Tech, Maharashtra Seamless Ltd., Jindal Panther (JSPL), Asian, Narmada, Rama, Khanna, JTL, SRJ... etc, & ensuring that every product delivered reflects authenticity, reliability, and excellence.

Driven by our core values of Integrity, Quality, and Commitment, Shreeji SteelTubes Pvt. Ltd. continues to build strong and long-lasting relationships with over 1,500+ satisfied clients across Infrastructure, Engineering, Oil & Gas, Power, and Fabrication industries throughout India.

Building India's Growth — One Tube at a Time.

www.shreejisteeltubes.com

VISION

Build for durability- We want to deliver something worth, that will endure the test of time. We will do this by relentlessly focusing on our customers' need, building high quality systems to serve them better & better with planning for long term scale and very skilled work force.

MISSION

The prime mission of Shreeji Steel Tube Pvt. Ltd. is to meet the need of developing Indian economy, with high quality steel tubes, best quality service to customers with competitive price. With feet firmly set on the ground and our enthusiasm sky high, we are now more than ready to explore new avenues and further strengthen our presence in the industry.

CORE VALUES

Not to do business of ethics but to do business with ethics. We are accountable by measuring ourselves against the highest standard of business ethics, integrity and fiscal responsibility.

SHREEJI
SteelTubes Pvt. Ltd.

COMPANY CHRONOLOGY

1970
FORMATION OF MODI BROS COMPANY AS COMMISSION & PROCUREMENT FIRM

2005
JOINING OF 2ND GENERATION, MR. RONAK MODI SON OF MR. ROHIT MODI INTO THE FAMILY BUSINESS

2011
FORMATION OF M/S. SHREEJI STEEL TUBES, AS A DISTRIBUTOR OF MS PIPE, GI PIPE, GP PIPE, HOLLOW SECTION

2020
FURTHER EXPANDED PRESENCE IN INDIA WITH SERVICE BASED APPROACH

2018
COMPANY CROSSED REVENUE OF INR 101.00 CR

2017
ADDED SKU - LARGE DIAMETER PIPE'S INTO OUR PRODUCT MIX ALONG WITH HOLLOW SECTIONS & ROUND PIPE.

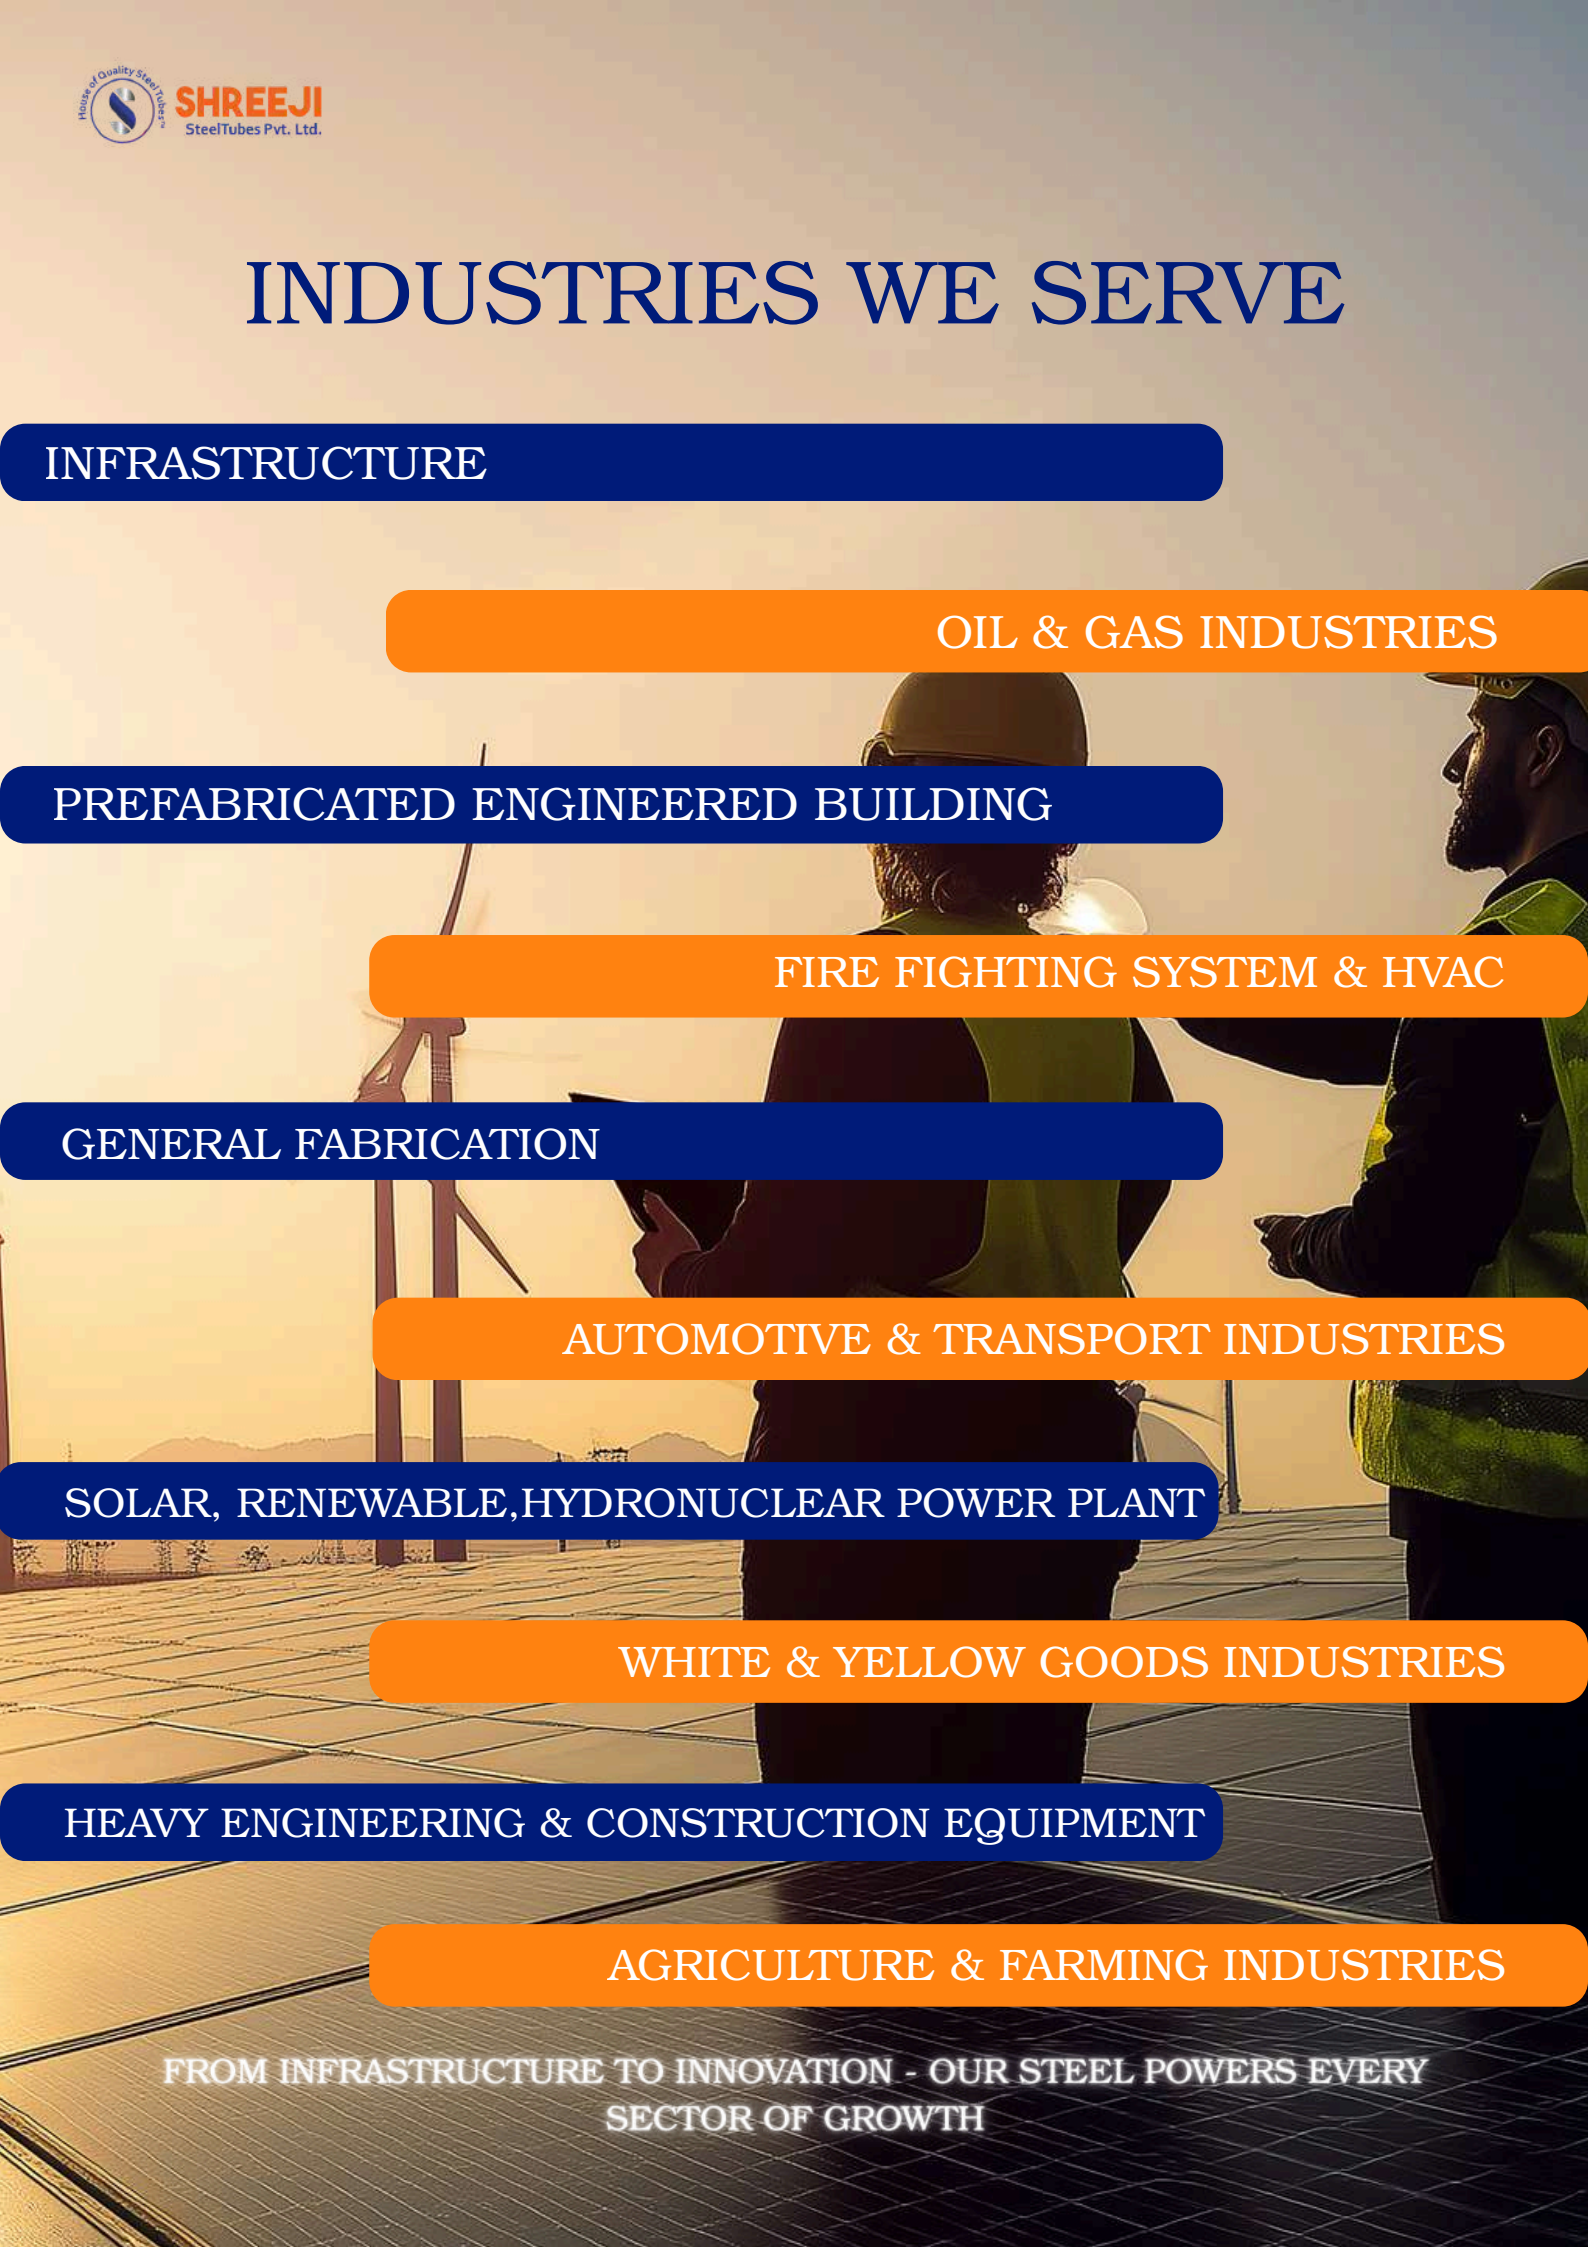

2021
AWARDED 2ND BEST PERFORMANCE FROM 'JINDAL GROUP' (JINDAL / MAHARASHTRA SEAMLESS LTD)

2022
ADDED SKU 'TATA STRUCTURA' HIGH GRADE TUBES FOR HEAVY ENGINEERING INFRASTRUCTURE

2024
COMPANY CROSSED ANNUAL SALES OF 44,800 TON'S & 1200+ CUSTOMER' BASE

SHREEJI
SteelTubes Pvt. Ltd.

INDUSTRIES WE SERVE

- INFRASTRUCTURE
- OIL & GAS INDUSTRIES
- PREFABRICATED ENGINEERED BUILDING
- FIRE FIGHTING SYSTEM & HVAC
- GENERAL FABRICATION
- AUTOMOTIVE & TRANSPORT INDUSTRIES
- SOLAR, RENEWABLE,HYDRONUCLEAR POWER PLANT
- WHITE & YELLOW GOODS INDUSTRIES
- HEAVY ENGINEERING & CONSTRUCTION EQUIPMENT
- AGRICULTURE & FARMING INDUSTRIES

FROM INFRASTRUCTURE TO INNOVATION - OUR STEEL POWERS EVERY SECTOR OF GROWTH

SHREEJI SteelTubes Pvt. Ltd.

WHY CHOOSE US...?

WIDEST RANGE & QUANTITY OF TUBES IN STOCK (ROUND/SQUARE/RECTANGLE)

- ROUND : MS PIPE & GI PIPE : IS1239 / IS3601
- LARGE DIA PIPE : IS3589 FE330/FE410 (ERW & SPIRAL PIPE)
- STRUCTURAL HOLLOW STEEL TUBES (CHS/RHS/SHS) : IS4923 / IS1161
- GP PIPES & HOT DIPPED GI SQUARE/RECTANGLE PIPE
- SECONDARY MATERIAL PIPE

COMPETITIVE PRICING

OUR PRICING STRATEGY IS HIGHLY COMPETITIVE IN THE MARKET, WITHOUT COMPENSATING ON THE QUALITY & THE TIMELINE OF PROJECT DELIVERY.

QUALITY & RELIABILITY

AT SHREEJI, WE ARE COMMITTED IN PROVIDING BEST OF QUALITY PRODUCT'S TO ALL OUR USER'S.. THIS JUSTIFIES OUR TAGLINE "HOUSE OF QUALITY STEEL TUBES"

"WE ARE HIGHLY AGAINST PRACTICE OF MIXING PATRA OR SEMICOIL PIPE ALONG WITH COIL PIPE'S WHICH IS IN TREND RIGHT NOW" !

PROFESSIONAL TEAM

OUR TEAM AT SHREEJI ARE BUILT WITH HIGHLY PROFESSIONAL TEAM HAVING STRONG KNOWLEDGE & SPECIALISED IN SALES / PRODUCT SPECIFICATION / PRODUCT APPLICATION'S / FINANCIAL & ACCOUNTING.. ETC

CLIENT SATISFACTION

MAINTAINING A LONG TERM RELATIONSHIP WITH OUR CLIENT IS THE KEY TO OUR APPROACH. OUR APPROACH TO OUR CLIENT IS ALWAYS POSITIVE & CLIENT SATISFACTION IS OUR TOP PRIORITY. TATA STRUCTURA : YST310 / YST355

High Tensile Grade YST310 / YST355 IN STRUCTURAL STEEL TUBES : HIGH GRADE MATERIAL READY STOCK

AT SHREEJI,
WE HAVE READY INVENTORY IN HIGHER GRADED MATERIAL IN SHS/RHS/CHS "GRADE.: IS4923 - YST240/ YST310 / YST355"

SHREEJI SteelTubes Pvt. Ltd.

WHAT MAKES US DIFFERENT...?

Transparent & Ethical Business Practices
→ Honesty and integrity in every dealing.

Building Long-Term Relationships
→ We believe in partnerships, not just transactions.

Widest Range & Diverse Inventory
→ From square, round to rectangular hollow sections — all under one roof.

Strong & Reliable Supply Chain Network
→ Ensuring seamless availability across India.

Extraordinary Customer Service
→ Focused on your satisfaction — quick response, reliable support, and timely supply.

Dedicated & Skilled Sales Team
→ Always ready to assist you with technical and commercial excellence.

Operational 365 Days
→ Because your business never stops, and neither do we.

Authorized Distributor for India's Leading Brands
→ Delivering top-quality steel tubes from the most trusted names in the industry.

Geographically Connected Nationwide
→ Strategically linked with leading plants across India for faster, cost-efficient delivery.

Technology-Driven & Innovative Approach
→ Continuously upgrading with modern processes and quality solutions.

SHREEJI SteelTubes Pvt. Ltd.

AUTHORISED DISTRIBUTOR'S OF:

Over the years, prestigious brands have acknowledged our consistent performance and appointed us as their Authorised Distributor. Their continued support and recognition reflect our long-term commitment to excellence and trust.

SERVICES

A TO Z VALUABLE SERVICES ARE OFFERED BY US FOR 365 DAYS FROM OUR OFFICE & WAREHOUSE.

365 Days Of Service	Angle Cut	Transport Arrangement @ Best Rate
Bevelling	Chamfering (Not in House)	Cold Saw Cutting
Cut to Length	Deburring	Delivery on demand or same day pickup of your requirement
Gas Cutting	Lab Testing Facility	Profilling Of Pipe
Lathe Tube Cutting	Nesting Of Pipe	Project Management System
Protective Coating	Special Packing & Building	Specially Inventory Management System
Test Certificate For All Product	Third Party Inspection	Threading/Socket
Transportation & Logistics	Tube Bending (Not in House- Dependent on Size & Quntity	Tube Laser Cutting (Not in House)

Direct delivery from nearby quality manufactures to save your freight cost.

SHREEJI SteelTubes Pvt. Ltd.

GI PIPE

HOT DIPPED Galvanized PIPE

PRODUCT DESCRIPTION

GI Pipe (Hot Dip Galvanized Pipe) — Steel pipes coated with a layer of zinc through the hot-dip process to prevent corrosion. These pipes offer high strength, durability, and resistance to rust, making them ideal for construction, water, gas, and industrial applications in both indoor and outdoor environments.

APPLICATION OF GI PIPE

- Water Supply
- Agriculture & Irrigation
- Construction & Structural Use
- Fencing & Railing
- Firefighting Lines
- Oil, Gas & Industrial Pipelines
- Electrical Conduits

SIZE RANGE

PRODUCT	SIZE	THICKNESS	LENGTH
GALVANISED PIPE (GI PIPE)	15NB - 500 NB (21.70mm OD - 508.00mm OD)	2.00mm - 12.70mm CLASS: LIGHT/MEDIUM/HEAVY	4.00 - 12.00 METER

APPLICATION & SPECIFICATIONS

GALVANISED PIPES APPLICATION	INDIAN STANDARD (IS)	AMERICAN STANDARD (ASTM / ANSI)	BRITISH STANDARD (BS / EN)
Water, Gas, Sewage, Fire.. Etc	IS1239 (PART1 - 2004)/IS3589 - Fe330/Fe410	ASTM A53 / 1993	BS 1387 / 1985
Mechanical, Structural (CHS) & General Engineering	IS1161 – YST210, YST240, YST310, YST355 / IS3601	-	-

SHREEJI SteelTubes Pvt. Ltd.

MS PIPE

BLACK PIPE / ERW PIPE

PRODUCT DESCRIPTION

Manufactured from high-quality mild steel under the supervision of skilled engineers, these pipes are available in various sizes and lengths. Known for their strength, durability, and smooth finish, MS Black Pipes are widely used for water, gas, and fuel transportation, construction, and diverse industrial applications.

FEATURES

- Hold superior corrosion resistance strength
- Can be installed in indoor as well as outdoor areas.
- Longer working life
- Economical in operation
- Uniform design
- Available in various length, thickness and size

APPLICATION OF MS PIPE

- Liquid
- Transmission
- Conveyers Idlers
- Structural
- Fire Protection
- Mechanical & General Er.
- Fencing
- Electrical Conduit
- Fabrication
- Electric poles
- Water & Sewage
- Water Wells

SIZE RANGE

Product	SIZE	THICKNESS	LENGTH	GRADE
MS PIPE ERW /BLACK PIPE (MS Pipe)	15NB-600NB (21.70mm OD -610.00mmOD)	1.00mm - 16.00mm Class: Light/Medium/ Heavy	4.00 - 12.00 meter	IS1239,IS3589,Fe330-Fe410,IS1161-YST210/YST240/YST310 /YST355,IS3601,IS9295

SHREEJI SteelTubes Pvt. Ltd.

LARGE DIAMETER PIPES

(ERW / H-SAW / L-SAW)

PRODUCT DESCRIPTION

Manufactured as per IS 3589:2001, these steel pipes are used for water and sewage applications. Available in diameters from OD 168.3 mm to OD 2540.0 mm, they come in ERW (Electric Resistance Welded), H-SAW (Helically Submerged Arc Welded – Spiral), and L-SAW (Longitudinal Submerged Arc Welded) forms. Widely used in collieries for water extraction, thermal power plants, transport systems, industrial pipelines, and agriculture & irrigation purposes.

APPLICATION OF L.D.P PIPES

- Water Mains for Domestic & Industrial use
- Industrial Water Lines, Plant Piping.
- Agriculture and Irrigation
- Oil Pipe Lines
- Oil Refinery Piping, Crude Oil Piping.
- Cross Country Pipe Line
- Gas Supply

PIPE COATING FOR LARGE DIA PIPES

As per requirement we also offer Pipe Coating Solutions – 3LPE Coating, Fusion Bond Epoxy, External Coal Tar Tape Coating, External Coating, External Cement Mortar Ling, Internal Liquid Epoxy Coating, Internal Cement Mortar Lining 3 Layer PE Coating.

SIZE RANGE

PRODUCT	SIZE	THICKNESS	LENGTH	STANDARD
MS ERW PIPE	168.30mm OD – 610.00mm OD(6" NB – 24" NB)	4.00mm – 16.00mm	4.00 – 12.00 meter	**IS3589 FE330 OR FE410, API 5L GR Upto X 80, ASTM A 252, ASTM A 139, IS 5504**
H-SAW PIPE - SPIRAL WELDED PIPE / L-SAW PIPE	457.00mm OD – 3048.00mm OD(18" NB – 120" NB)	5.00mm – 16.00mm	6.00 – 12.00 meter	**IS3589 FE330 OR FE410, API 5L GR Upto X 80, ASTM A 252, ASTM A 139, IS 5504**

HOLLOW SECTIONS :

SQUARE (SHS) / RECTANGLE (RHS) / CIRCULAR (CHS)

PRODUCT DESCRIPTION

SQUARE HOLLOW SECTIONS (SHS):

Square Sections are made from high-grade, graded steel as per international standards to enhance structural reliability. Widely used in the automotive, transmission tower, machinery, and construction industries, these sections offer excellent tensile strength, rust resistance, and long service life. Each section is tested for tensile, bending, flattening, and other strength parameters to ensure superior performance.

RECTANGLE HOLLOW SECTIONS (RHS):

Rectangular Sections are made from the finest steel and valued for their strength and durability. Known for precise dimensions and manufacturing accuracy, they meet international standards and are tested for tensile strength, flattening, bending, and drift expansion. These sections are widely used in furniture, construction, automotive, and many other industries.

CIRCULAR HOLLOW SECTIONS (CHS):

Round Hollow Sections are precisely designed using prime-grade steel, ensuring superior rigidity and corrosion resistance. These circular sections offer excellent tensile strength, lightweight construction, and high impact strength. They also provide better weld ability, enhanced resistance to surge pressure, and protection from chemical contamination—making them suitable for various industrial applications.

EXPLORE FURTHER

SHREEJI SteelTubes Pvt. Ltd.

HOLLOW SECTIONS :

SQUARE (SHS) / RECTANGLE (RHS) / CIRCULAR (CHS)

APPLICATIONS

- Machinery manufacturing industry
- Transmission tower plants
- Automotive industry
- Construction industry
- Furniture
- Heavy Machine Equipment
- Agricultural Equipment
- Earth Moving Equipment
- Solar Panel & Systems
- Electric Pole's

HOT-DIPPED GI SECTION (GALVANIZED SQUARE/RECTANGLE/ROUND TUBE)

All these pipes can also be available in Hot Dip Galvanized form depending on your requirement & quantity. Galvanizing will increase the lifeline,durability,strength, rust prevention of the product.

SIZE

SHAPE /PRODUCT	SIZE	THICKNESS	LENGTH METER	INDIAN STANDARD	STEEL GRADE
CIRCULAR HOLLOW SECTION (CHS)	21.70mm OD-610.00OD)	1.20mm - 16.00mm	4.00mtr To 12.00mtr	IS1161 / IS3589	YST210/YST240/YST310/YST355 & Fe330/Fe410
SQUARE HOLLOW SECTION (SHS)	12mm X 12mm – 600mm X 600mm	1.20mm-25.00mm	4.00mtr To 12.00mtr	IS4923	YST210/YST240/YST310/YST355
RECTANGLE HOLLOW SECTION (RHS)	26mm X 13mm – 600mm X 550mm	1.20mm-25.00mm	4.00mtr To 12.00mtr	IS4923	YST210/YST240/YST310/YST355

PRODUCT DESCRIPTION

In the ever growing need for superior quality and high strength steel tubes for construction or heavy engineering activity in India we are glad to supply to all our esteemed client. YST310 or YST355 high strength steel hollow sections (CHS/SHS/RHS) are superior in quality and are manufactured using best-grade raw materials (HR Coils) from our world-class Hot Strip Mill. It also comes with a yield strength of 355MPa and UTS of 490MPa, providing a better strength-to-weight ratio and sectional properties. This, in turn, helps in steel savings of up to 40% as compared to conventional angles or channels, and up to 20% compared to local steel hollow sections. These steel savings ultimately lead to more economical project execution.

ARCHITECTURAL ADVANTAGE

- Smooth profile of hollow sections enhances the aesthetic appeal
- High quality surface finish
- Best suited for architecturally exposed steel.
- Easy to bend into various forms and shapes.
- Clutter-free fabrication for visually appealing look.
- Supreme tensile strength

STRUCTURAL ADVANTAGE

- Superior geometric properties of Structural Sections allows better use of material.
- High grade of steel with good amount of ductility ensures lighter weight of structural system & High torsional rigidity.
- Encourages use of Long Unsupported Lengths for Columns and Beams.

FABRICATION AND MAINTENANCE ADVANTAGE

- Lighter material attracts lesser cost for fabrication and erection.
- Dust accumulation avoided unlike open sections which has crevices.

SEAMLESS PIPE

PRODUCT DESCRIPTION

A seamless tube is a tube that does not have any welding seam. In a Seam or Welded pipe, the seam or the weld-joint is the weaker part of the pipe limiting the strength of the pipe to the strength of the weld-joint. Whereas the seamless pipe does not have any such joint and thus has uniform structure & strength all over the pipe body. So seamless steel pipe has better pressure capacity, strength is higher than ERW welded steel pipe. Generally the welding seam of the welded steel pipe is the weak point, the quality affect overall performance.Thus seamless pipe is widely used in high pressure equipment, and thermal boiler industries, corrosive atmosphere and widely use in oil and gas refinery, Petrochemical, Chemical, Fertilizer, Power, Automotive, Bearing, Mechanical & Structural applications.

Applications

- Oil & Gas Refinery
- petrochemicals
- Hydro Carbon Process
- Chemical & Fertilizer Industries
- Automotive
- General Engineering
- Bearing
- Boilers & Heat Exchanger
- Mechanical & Structural Application

Size Range

Product	Size	Thickness	Grade	Length
Carbon Seamless Pipes	21.70mm OD to 610mm OD	SCH 20/SCH 30/SCH STD/SCH 40/SCH XS/SCH 60/SCH 80/SCH 100/SCH 120/SCH 140/SCH 160/SCH XXS	ASTM A106 GR B/ ASTM A53 (Depending on requirement we can offer different grade too	5.00 to 7.00 meter

PRE-GALVANIZED TUBE (GP PIPE)

PRODUCT DESCRIPTION

Pre-Galvanised Tubes (GP Tubes) are made from high-quality MS Galvanized Sheets pre-coated with zinc, ensuring durability, stability, and long-term resistance to atmospheric and corrosive conditions. The zinc coating strengthens the metal and prevents rust. These tubes have a uniform coating that withstands mechanical stress without damage. Tested on multiple quality parameters by experts, they are offered at market-leading prices.

APPLICATIONS

- Gates & Grills
- Electrical Conduits
- Advertisement Hoardings
- Scaffolding
- Fence Framework
- Cabling & Ducting
- Automotive Industries (Bus Body)
- Green House Structures

Size Range

SHAPES / PRODUCT	SIZE	THICKNESS	LENGTH	INDIAN STANDARD	GSM (ZINC COATING)
ROUND TUBE (CHS)	21.30mm OD – 76.30mm OD	0.80MM – 3.00MM	4.00 to 6.00 meter	IS 3601	60 / 90 / 120 GSM
SQUARE HOLLOW SECTION (SHS)	15mm X 15mm – 100mm X 100mm	0.80MM – 3.00MM	4.00 to 6.00 meter	IS 4923	60 / 90 / 120 GSM
RECTANGLE HOLLOW SECTION (RHS)	40mm X 20mm – 100mm X 50mm	0.80MM – 3.00MM	4.00 to 6.00 meter	IS 4923	60 / 90 / 120 GSM

QUALITY ASSURANCE

We at Shreeji Steel Tubes Pvt. Ltd. continuously update and train ourselves to provide all best possible solutions to requirements of our customers. Excellent procurement policies of firm has justified our tag line House of Quality Steel Tube. WE REGULARLY MONITOR all statutory. regulatory, health, safety and environmental requirements.

Our quality management team is continuously involved in acquiring knowledge that helps in improvement in services provided by us. Every products is thoroughly checked & inspected before dispatch which helps our customer to have blind faith on us !

Partner with Us - Scan to Share Your Requirements

VENDOR REGISTRATION / REQUEST FOR QUOTE

At Shreeji Steel Tubes Pvt. Ltd. we offer widest range of quality steel tubes which are readily available / custom made requirement / brand specific requirement if any. All your inquires will be attended by our skilled staff equipped with full knowledge of products. For vendor registration please click on QR Code.

CEO Insights TOP 10
LEADERS IN MINING & METALS 2024

RONAK MODI

A PASSIONATE LEADER DELIVERING VALUE VIA QUALITY STEEL TUBES

"Success is not final, failure is not fatal: It is the courage to continue that count" - Winston Churchill. This quote resonates deeply with Ronak Modi—Managing Partner of Shreeji Steel Tubes—who grew up witnessing the entrepreneurial journey of his father and uncle. Seeing them overcome challenges and build successful businesses fueled Ronak's entrepreneurial aspirations. Inspired by their determination and resilience, Ronak embarked on his own venture, determined to make a mark in the business world. In 2011, after accumulating significant experience, Ronak launched Shreeji Steel Tubes, which specializes in steel tubes within the metal industries. Today, Shreeji Steel Tubes is one of the leading distributors, stockists, and supplier of Iron & Steel products. I also thank my father's business associates from the same industry, who shaped my ideas since childhood. Circa 2024 – I am driven by a vision to be a quality driven steel tubes behemoth whom my customers can trust!!

In this interview with CEO Insights, Ronak shares insights into his entrepreneurial journey and highlights his personal experience.

How would you define Shreeji Steel Tubes as an organization and where it's positioned in today's market?

Shreeji Steel Tubes is an ISO 9001:2015 certified company based in Mumbai. We are known for a widest range of superior quality steel tubes, affirming our reputation as the House of Quality Steel Tubes. Our commitment to meeting customer needs under one roof is evident in our extensive range of steel tubes, including GI, MS, and GP ERW Round Pipe, Structural Hollow Sections (Circular (CHS), Square (SHS), and Rectangular (RHS) in all steel grades YST210/YST240/YST310/YST355), Seamless Pipes, Spiral Welded Pipes, and other MS/Galvanized Steel products, available in all sizes.

With a vast storage capacity spanning approximately 84,000 square feet in Kalamboli, a key steel market hub in Maharashtra, we are uniquely positioned to deliver high-quality products in desired sizes and quantities not only in Mumbai and Maharashtra, but also across major regions in India. Our large customer base and strategic approach to product acquisition have enabled us to build a loyal customer portfolio.

How do you approach leadership, and what values characterize your leadership style?

My approach to leadership has evolved over time. Initially, I was very hands-on, trying to handle everything myself without delegating enough. However, as the company has grown significantly, I've come to realize the importance of having a strong team. I have started delegating tasks and have already implemented a team structure. Additionally, I have the support of my active father and my wife, who manage the accounts. They play key roles in maintaining the team's performance. Moving forward, we plan to further professionalize the team by appointing domain experts to manage different functions.

How do you stay updated with the latest industry trends?

In our industry, staying updated with the latest trends is a continuous effort that revolves around effective networking. Networking plays a crucial role as it allows us to connect with key players, stay informed about market dynamics, and anticipate upcoming trends. As a company associated with top brands in India, maintaining strong networks is essential for us to remain competitive and relevant in the industry.

Our years of experience and established reputation have positioned us well to leverage these networks effectively. We actively engage with industry experts, attend relevant conferences and seminars, and keep a close eye on market developments. This proactive approach enables us to not only stay informed about current trends but also anticipate future shifts in consumer preferences, technology advancements, and regulatory changes.

Being at the forefront of our industry means being adaptable and responsive to changes. We are confident in our ability to adapt quickly to emerging trends, innovate our product line, and maintain our position as a leader in the market. This commitment to staying updated and leveraging our networks ensures that we continue to meet the evolving needs of our customers and drive growth in our business.

What are your goals and future aspirations for the next five years?

Currently, we are experiencing significant growth, driven by our efforts and vision. We believe this growth trajectory will lead us to new opportunities and milestones in the business. One of our primary objectives in the coming years is to reach every customer segment across India, expanding beyond our current base in Mumbai and the western region. Our vision is to establish a presence at a national level, ensuring that customers who value quality and variety of products are drawn to us through our reputation and positive word of mouth.

We take pride in our company's commitment to ethics and principles, valuing customer input and embodying a culture of quality in everything we do. Our company's tagline 'House of Quality Steel Tubes,' reflects this ethos. As we look at our current standing, we are eager for growth, fueled by India's ongoing economic expansion. Our goal is to double our product (SKU) range in the steel tubes & steel category in the coming years.

Drawing from your extensive experience in the mining and metal industry, what advice would you give to future leaders entering this domain?

My advice for future leaders entering the mining and metal industry is rooted in foundational principles. Firstly, there's no replacement for hard work; it forms the core of success in this field. Having a clear vision is crucial, as it guides your actions and decisions while upholding ethical standards under all circumstances.

Another key aspect is never compromising on quality. Quality is not just a standard; it's a commitment that builds trust with stakeholders and ensures long-term success. Finally, always prioritize ethics and principles. These values are the backbone of sustainable business practices and contribute to earning respect and credibility in the industry.

RONAK MODI
MANAGING PARTNER
SHREEJI STEEL TUBES

Ronak Modi is a driven entrepreneur with a strong background in business development and strategic planning. His leadership style is characterized by a focus on innovation, quality, and ethical practices.

Our vision is to establish a presence at a national level, ensuring that customers who value quality & variety of products are drawn to us through our reputation & positive word of mouth
